

# Application form

Learning Circles are free, lightly-facilitated study groups for learners who want to take online courses, together and in person. The facilitator is present to help support your learning experience, but he or she is not an expert in the content you'll be covering. Rather, the expertise resides in the online course, your peers, and yourself. What Learning Circles offer is a support group for learning, access to new studying strategies, dedicated weekly study time and space, a network of colearners, and the ability to learn in low pressure environment.
